Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: The Applicant Representative discussed the proposed amended claim 1 and how it showed that the client window was being displayed concurrently with the browser window. The Examiner noted that the terminology of 'concurrently' being displayed did not preclude the client window from being displayed within the browser window as argued by the Applicant. Agreement was reached to further amend the claim to clarify that the client window was displayed outside of the browser window, i.e. independent of the browser window/not dependent on the browser window. The Examiner agreed that this would probably overcome the cited prior art but the a further search would be required. The Applicant Representative indicated that a formal amendment would probably be filed along with an RCE to preclude receipt of an Advisory Action.
